I II WIND THE TH
MARKET WAS UNSETTLED.
New York, Feb. 17.—The same unstable influences which have operated to the detriment of quoted values in the stock market for weeks past were effective again today, the trend of leading issues being mainly downward.  Trading lost none of its professional aspects, save in equal isolated instances where persistent offerings bore the marked involuntary liquidation arising from fosrh industrial unsoftlement of dubious divident prospects.

instranta."

Existing conditions in the steel trade were reflected in the reduced dividend declared by the Cambria directors, and a further increase of idle railway equipment evidenced the general curtailment of manufacturing activities.

Reversing its orders of the previous day, the market registered lowest prices in the last hour. Maintenance of call money at 7 per cent, as against yesterday's 5 per cent, rate, provoked further bearish aggressions, in which practically al gains were effaced at the heavy close. Sales amounted to 600,000 shares.

All the foreign exchanges weakened, notabbly French, Belgian, Dutch and notably French, Belgian, Dutch and Spanish restitiances and Scandinavian rates added to their recent setback. The Beston, Res. 17.—To run football by plays instead of by the watch will be argued again before the football rules committee at its annual meeting in New York.
